

## **Extraoral and Intraoral**

One of the greatest challenges of a successful treatment is convincing patients to faithfully wear their headgear.

ODP helps take the anxiety out of wearing these devices with our stylish line of extraoral force products. Our cervical, high-pull, and combination appliances feature safety release force modules to avoid dangerous “slingshot” rebound injuries, while providing measurable, consistent force levels.

# Extraoral and Intraoral

## Multi-Adjustable Dynamic Facemask

### ERGONOMIC FOREHEAD REST

High impact molded plastic for a smooth aesthetic appearance. Replaceable medical grade foam cushion. Fully adjustable with hexagon wrench.

### VERTICAL MAIN FRAME

Constructed from the highest quality corrosion resistant stainless steel. Flat surface prevents rotation of parts.

### ERGONOMIC CHIN CUP

High impact molded plastic for a smooth aesthetic appearance. Replaceable medical grade foam cushion. Fully adjustable with hexagon wrench.

### HORIZONTAL CROSSBAR

Multi-adjustable for precise angle of force delivery. Multiple elastic stops eliminate slippage. Constructed from the highest quality corrosion resistant stainless steel.

### CHIN CUP WITH FULL RANGE OF MOTION OPTION

The set screw gives the option for a fixed position, or for a full range of motion. Dynamic full range of motion option. Glides smoothly along the mainframe without side-to-side rotation. Allows the patient to open and close their mouth comfortably with a full range of motion.

### SMALL LIGHTWEIGHT END CAPS

Smooth aesthetic appearance.
